

2024 SELECTION

CAMERA

Camera lights focus on camera security features.

The camera lights which with Wi-Fi Camera comes and fit with camera and motion detector. The camera light provides full control of all safety settings that can be setting in the BTR app in your smart phone. Such as camera, Light, motion sensor and a two-way-speaker.

The camera light mainly focus on monitoring function that you can access in at any time to see what is going on in your home garden. Also you can record for reply videos. The other function is that you can make communicate with the two-way-speaker by BTR app.

WINTER SOLAR

High power solar lights are increasingly accepted by the market. The luminous flux is more than 300LM and working time is getting longer. With the combination of high-quality solar panels integrated control system and sensors, the longest lighting time even reaches one month or more. It becomes a veritable WINTER SOLAR.

WINTER SOLAR can be not only used at the places with ample sunlight but also at the places with less sunlight, such as Britain and Scandinavia.

Magic tube light focus on lighting color adjustment features.

“Magic tube” means you can change any color you want by the app in your phone, which with Wi-Fi connection between the light and your cell-phone, and the “Tuya” app provides full control of all settings such as color adjustment, brightness adjustment and Customized color mode adjustment.

The main function of this “Magic tube” light is to create the best atmosphere under different activities, like different parties with different color adjustment, different color in different seasons and so on.
